Mrs. Dismukes: Q&A The Kelly Springs Mileage Club

We have interviewed Coach Drake. Here are some of the questions we asked our coach.

1.Q: Why did you decide to set up the Mileage Club?

A: "Because I am passionate about running, and it is important to foster a love of running at this age."

2.Q: Do you think it will make a difference, fitness wise, for the students?

A: "I hope so. I think that pushing them will help them run."

3.Q: Do you think a nice amount of students signed up?

A: "Yes. I think that progress will help others sign up."

4.Q: Those who signed up, will they be required to practice?

A: "No. They can run as much or as little as wanted."

5.Q: Do you think we will be able to progress towards races?

A: "Yes"

The mileage club will be a great resource for students, and for more information on the Mileage Club contact Mrs. Drake.

Character Counts with Mrs. Morris

For this article, we are working to bring attention to the Character Counts program that she is encouraging. After interviewing, some of our fellow peers, we received answers to big ideas and thoughts of the outcome about the program. We chose three random students and asked them questions about the program and what they think about it. The first student interviewed was a 4th grader from Mrs. Whitfield's class. All students interviewed had the same 4 questions. 1.- How do you think the program will turn out? All 3 of the students interviewed said that they think it will have a good outcome. Question 2- Why do you think Mrs. Morris started the program? They all had similar answers saying they thought it was to help give a better attitude change. Question 3.- Are there any changes you would have made to the program? What would those changes be? Student one said "yes, I think there should be more face-to-face interaction with the students." Student two said "Yes, choosing volunteers to see if there are any changes would help. And then student three said

"Yes, face to face interaction would be helpful." We look forward to the positive influence this program will have on KSE.

Heads Up!

Advice column coming soon! Find one of our advice boxes on the stage in the lunchroom and the entrance of the school. Drop your questions in one of the boxes. We will print our advice in the newspaper.

SGA

Some people wonder what goes on in SGA. SGA, stands for Student Government Association, SGA works for the students and for the school of Kelly Springs to make it even better. SGA WELCOMES and is OPEN to YOUR suggestions so PLEASE send all those IDEAS to any SGA representative. During meetings, ideas are brainstormed. Some of the ones that have been acted implemented are: the can food and recently the school Store which is opened before school on Mondays. You may, also, notice SGA officers outside and inside our school picking up litter. Which is a reminder to please remember to throw your trash in the proper wastebin. Thank you so much for reading this so you understand a little bit more about what we try to do to help our school and YOU.
